1. Consolidated Statements of Operations

For the fiscal year ended December 31, 2025, total revenue was $42.5 million, compared to $34.2 million in fiscal year 2024, representing an increase of 24.3%. Operating income was $8.2 million in 2025 compared to $10.5 million in 2024. The reduction in operating margin from 30.7% to 19.3% was primarily driven by elevated GPU computing cluster lease expenses and increased talent acquisition costs.

Table: Key Financial Metrics (in USD Millions)

Financial Metric | FY 2024 | FY 2025 | YoY Change
Total Revenue | $34.2M | $42.5M | +24.3%
Gross Profit | $22.1M | $24.8M | +12.2%
Operating Income | $10.5M | $8.2M | -21.9%
R&D Expenditures | $8.4M | $12.1M | +44.0%
Operating Cash Flow | $7.8M | $6.4M | -17.9%

2. Segment Performance & Capital Investments

The Enterprise SaaS segment generated $25.8 million, up 28.0% year-over-year, reflecting strong market adoption of the Document Copilot enterprise edition. Cloud Infrastructure services contributed $16.7 million, representing 39.3% of revenue.

Capital expenditures totaled $5.4 million for the year, focusing on:

- High-performance GPU inference servers for on-premises enterprise deployments.
- Low-latency network interconnects between Tehran and regional data availability zones.
- SOC 2 Type II compliance audits and international security certifications.
